

March 4, 2021

Dear residents, families and teammates,

We continue to receive questions regarding Governor Abbot's executive order regarding the re-opening of businesses and its impact on our organization. Based on our current understating of the order we have the ability to maintain the safety protocols we put in place at the beginning of the pandemic. These include:

- Safety screenings prior to entry onto Forefront Living campuses
- Limited visitation
- Mask requirements across Forefront Living Campuses
- Social distancing requirements
- The use of other personal protective equipment (PPE) worn when necessary

As you are aware, we provide services to those at the highest risk for contracting virus. As such we need to maintain our conservative approach to infection control. We all look forward to a day when the pandemic is behind us, in the interim we appreciate your cooperation and understanding as we work together to prevent the spread of COVID-19.

Sincerely,

Tim Mallad
CEO, Forefront Living
